

International subcontracting fair for parts, components, modules and technologies

### Veranstalter

- Leipziger Messe GmbH

### Termin

- 05.02. – 08.02.2019

### Results of Z 2017

- Exhibitors: 362
- Visitors (with Intec): 24,200
- Percentage of trade visitors: 99%
- Gross area: 10,250 m<sup>2</sup>

### Product profile

- Parts and components
- Joining, connecting and assembly processes
- Materials and semi-finished products
- Processes as technological supply services
- Tools and equipment for manufacturing vendor parts and modules
- Electronics/electrical engineering
- Industrial services
- Information, organization, consulting

### Event Profile

The Z - Subcontracting Fair is one of the most important fixtures on the support industry's trade fair calendar in Europe. One fourth of the 362 exhibitors travelled from abroad to participate. A total of 20 countries were represented at the trade fair. The countries with the largest share of exhibitors included Italy, Poland, Switzerland and Czech Republic.

The Z, which has been taking place since 2000, appeals to companies offering their services in particular to the

vehicle construction industry, the plant, machine and tool manufacturing sectors as well as other industrial sectors such as electrical engineering, plastics technology and processing as well as medical technology.

Visitors include primarily buyers, production and manufacturing managers, design engineers, research and development engineers and quality manager.

The Z has been taking place in conjunction with the Intec - International Trade Fair for Machine Tools, Manufacturing and Automation Technology since 2007. Together, both trade fairs cover the entire process and production chain, from parts, components and modules through to tools and machines and fully automated processing centers. Exhibitors and visitors alike profit from this combination and the resulting synergy effects.
