### Event Profile

The BEAUTY FORUM LEIPZIG fair offers trade visitors from all over central and eastern Germany and exhibitors from the skin-care, decorative and apparative cosmetics sectors an interesting portfolio of professional cosmetics. Along with the Foot, Nail and Accessories theme areas, the new „Trends in Focus“ theme area will present industry insiders the very latest developments in anti-aging, medical esthetics and health food.

An extensive IFC (specialist complementary programme) with workshops, congresses and company presentations, as well as some national competitions, completes the varied show programme. Competitions such as the German Nail Art Trophy, the German Nail Design Championships, the Beauty Forum Business Lady and the German Body Painting Trophy, as well as the BEAUTY FORUM Blue Diamond Young Talents Award will again ensure an exciting time for all. The specialist cosmetology and chiropody congresses provide a high-quality platform for professional development.
