Event Profile

Fachdental has been held in Germany's eastern regions since 1990 and in Leipzig since 1991. This fair provides compact, competent information on innovations and advanced developments for dental practices and laboratories. Dental-related enterprises from the German regions of Saxony, Saxony-Anhalt South and Thuringia East present innovative products and methods for dentistry, prosthodontics, dental prosthetics, implantology, oral surgery and orthodontics. As the central dental industry event in Germany's eastern regions, almost 100 percent of Fachdental's attendees are dental professionals from the region as well as the nearby German states of Hesse, Bavaria and Berlin/ Brandenburg. Foreign visitors also attend from the Czech Republic and Poland.
