## Event Profile

Staged annually, the mitteldeutsche handwerksmesse is regarded as one of the biggest events of its kind in Germany. With around 250 exhibitors it brings together the segments of construction and extension, homes, health and lifestyle, custom, hand-made fashion, arts & crafts, artisanal food and services.

The mitteldeutsche handwerksmesse is a platform for the craft trades sector in Central Germany for obtaining information and advice and securing orders. In conjunction with the major consumer and experience show for all the family, HOUSE-GARDEN-LEISURE, it gives exhibitors access to around 180,000 visitors in just a few days. The traditional visitor attractions are the special shows "See-Through Butcher's Shop" and "See-Through Bakery" which give visitors insights into these two ancient trades. The mitteldeutsche handwerksmesse took place for the 20th time in 2017.
