Event Profile

MEDCARE is the new sector rendezvous for clinical and non-clinical patient care. The focus of both the congress and the dedicated exhibition is on nursing care and includes therapies such as modern wound treatment, medical nutrition and dietetics, stoma and incontinence care, as well as palliative medicine. Special workshops and lectures are devoted to intensive care and hygiene. The concept of the event puts particular emphasis on the organisation of patient transition from the clinical to the non-clinical sector.
